PILOT

information

- 1 Colour of the product's barrel
- 2 Ink colour
- 3 Product number

BeGreen is Pilot's environmentally friendly range of pens. They are manufactured out of recycled plastic and at least 70% of the pens weight is made out of recycled materials in accordance with ISO14021. Excluding replaceable parts (e.g. refillers, ink, lead etc). All of our factories are ISO 14001 certified and our factory in France is EMAS certified.

* % of recycled material excl. replaceable parts (refills, ink, lead etc.)

WE ARE A CLIMATE NEUTRAL COMPANY

Climate neutral company; this means that we have calculated our greenhouse gas emissions, are continuously reducing them and offset unavoidable emissions through carbon offset projects. As well as the avoidance and reduction of greenhouse gas emissions, offsetting is also a vital step in climate action. Without offsetting, the 1.5-degree target of the Paris Convention is not achievable at present - we do not yet have the necessary technologies to reduce all emissions drastically enough to meet this target. Investing in carbon offset projects also promotes sustainable development in the Southern hemisphere, so that economic progress is not dictated by investment in and use of fossil fuels.

As a climate neutral company, we support the following carbon offset project:

Clean oceans
Plastic Bank
Worldwide

Climate neutral
Company
ClimatePartner.com/15377-2011-1001

PRODUCT NUMBER

Did you know that the product code for each product is the same numbers as the six last numbers of the EAN code?

DOCUMENT SAFE INK

Ballpoint pens in black, blue and red are document safe, according to ISO 12757-2.

V-Ball and Hi-Tecpoint pens in black and blue are document safe, according to ISO 14145-2.

Gel pens in black and blue are document safe, according to ISO 27668-2.

PACK SIZE

Begreen pens
10 pieces per box. Inner
10 boxes (100 pcs.) Outer

Other pens
12 pieces per box
12 boxes (144 pcs.)

do better with less.

Recycling, reducing and refilling our products is our way to take care of people and the planet through responsible products and commitments.

better by transformation.

recycle,
keep the use of plastic to the minimum.

Since 2006

We favour recycled plastic in our pen production.

better by limitation.

reduce,
less plastic in our packaging.

Switch to cardboard

We reduce the use of plastic by creating fully recyclable packaging.

better by evolution.

refill,
change the ink not the body.

Over 60% of Pilot products are refillable

We promote refill sales with a 2-in-1 offer of pens + refills: less waste and longer lifespan.

better by taking part.

reclaim,
less plastic in our oceans to reduce pollution.

PILOT is adding reclaimed ocean plastic, to the recycled PET material used in the manufacture of the iconic B2P range (Gel and Ecoball).

Refill your Pilot.
